

GQ_Assessment Automation Framework

1. Project Title and Description

Project Title: GQ_Assessment Automation

Description: Automation framework for GoQuant platform validating account management, orders, APIs, and UI flows.

2. Technologies and Frameworks

- Node.js, Playwright, markdown-pdf
- npm for dependency management
- MD5 checks for file integrity

3. Prerequisites

- Node.js v18+, npm
- Playwright browsers installed
- Git

4. Installation

```
git clone -b GQ_Assessment https://github.com/Darshana-BS/GQ_Assessment.git
cd GQ_Assessment
npm install
npx playwright install
```

5. How to Run Tests

```
# Run all tests
npx playwright test --reporter=html
npx playwright show-report

# Run specific test
npx playwright test tests/goQuant_cases.spec.js

# Generate MD5 checksums
find . -type f ! -path "*/.*" -print0 | xargs -0 -I{} md5 -r {} > GQ_Assessment_Report/md5_report.txt

# Generate combined PDF report
node generateReport.js
```

6. Project Structure

```
pages/      # Page object models
tests/      # Test scripts
fixtures/   # Test data
GQ_Assessment_Report/ # Reports
package.json
generateReport.js
```

7. MD5 Checksums (Top 10 Files)

Hash	File
3f43bd73037c2a0c3b7587ed4e4332e7	./GQ_Assessment_Report/Detailed_Report.pdf
53da0a5c7aa86ce618aaf63560487412	./GQ_Assessment_Report/md5_report.txt
be9f8598e483d50b47ed5a7452202e3e	./GQ_Assessment_Report/Detailed_Report.md
073b49d4796fbf0f985ca46dbcc8c0d2	./generateReport.js

Full MD5 report: [md5_report.txt \(md5_report.txt\)](#)

8. Playwright Test Summary

Test Name	Status
goQuant_cases.spec.js	See HTML report

Full HTML report: GQ_Assessment_Report/playwright-report/index.html

9. Known Bugs / Notes

- Update API sometimes returns 400 (handled)
- Cancel Order API sometimes returns 422 (handled)

10. Author

Darshana Nehulkar
